Wren Thornbury

Professor of Environmental Science | Port Averly | wren.thornbury@example.com

PROFESSIONAL SUMMARY

Values open feedback, careful planning and building good working relationships. Comfortable working both independently and as part of a team in fast-moving environments. Known among colleagues for clear communication and a calm, organised approach to everyday work. Interested in roles that combine practical problem solving with opportunities for personal growth.

CORE SKILLS

research design, grant writing, postgraduate supervision, curriculum development, statistical analysis, peer review, public engagement, fieldwork coordination, academic leadership, interdisciplinary collaboration, laboratory management, scientific writing.

PROFESSIONAL EXPERIENCE

Professor of Environmental Science — Quarry Lane Digital (2024 – Present)

- Reviewed collaborations with international research partners with attention to accuracy, clarity and consistency.
- Reviewed research seminars and reading groups for both internal teams and external partners.
- Documented peer review for academic journals as part of a small and friendly cross-functional team.
- Assisted with doctoral and master's supervision with attention to accuracy, clarity and consistency.
- Looked after collaborations with international research partners as part of a small and friendly cross-functional team.
- Organised doctoral and master's supervision while following established internal guidelines and quality standards.
- Supported doctoral and master's supervision and kept relevant documentation up to date for the wider team.
- Took part in outreach events for local schools for both internal teams and external partners.
- Prepared doctoral and master's supervision on a day-to-day basis alongside other routine responsibilities.
- Supported curriculum reviews and programme validation as part of a small and friendly cross-functional team.
- Streamlined an interdisciplinary research centre, growing student satisfaction scores by 18% year on year.
- Maintained peer review for academic journals using the tools and processes already in place within the organisation.
- Monitored doctoral and master's supervision in close collaboration with colleagues across several departments.
- Maintained peer review for academic journals in close collaboration with colleagues across several departments.
- Looked after outreach events for local schools during periods of change and shifting business priorities.
- Automated a field methods module within 8 months, generating $495K in new revenue.
- Received the Outstanding Contributor Award for delivering a soil carbon research project.
- Maintained undergraduate and postgraduate modules for both internal teams and external partners.
- Collaborated on doctoral and master's supervision while following established internal guidelines and quality standards.
- Took part in outreach events for local schools during periods of change and shifting business priorities.
- Supported collaborations with international research partners during periods of change and shifting business priorities.
- Reviewed peer review for academic journals for both internal teams and external partners.

- Implemented an industry partnership for sensor development, reducing sample processing time by 28% within 8 months.
- Supported doctoral and master's supervision using the tools and processes already in place within the organisation.
- Assisted with outreach events for local schools on a day-to-day basis alongside other routine responsibilities.
- Reviewed doctoral and master's supervision in close collaboration with colleagues across several departments.
- Documented peer review for academic journals while following established internal guidelines and quality standards.
- Collaborated on curriculum reviews and programme validation with attention to accuracy, clarity and consistency.
- Maintained undergraduate and postgraduate modules on a day-to-day basis alongside other routine responsibilities.
- Reviewed departmental committee work and kept relevant documentation up to date for the wider team.
- Reviewed collaborations with international research partners in close collaboration with colleagues across several departments.
- Collaborated on peer review for academic journals and kept relevant documentation up to date for the wider team.
- Maintained laboratory safety and equipment management during periods of change and shifting business priorities.
- Organised student pastoral support for both internal teams and external partners.
- Delivered a new master's programme in climate adaptation, reducing time to publication by 16% within 6 months.
- Contributed to departmental committee work in line with the priorities agreed with senior stakeholders.
- Looked after peer review for academic journals and kept relevant documentation up to date for the wider team.
- Looked after student pastoral support and kept relevant documentation up to date for the wider team.
- Collaborated on collaborations with international research partners in close collaboration with colleagues across several departments.
- Supported curriculum reviews and programme validation for both internal teams and external partners.
- Prepared doctoral and master's supervision as part of a small and friendly cross-functional team.
- Monitored collaborations with international research partners during periods of change and shifting business priorities.

Associate Professor — Silverfern Partners (2019 – 2024)

- Looked after doctoral and master's supervision as part of a small and friendly cross-functional team.
- Documented collaborations with international research partners using the tools and processes already in place within the organisation.
- Supported peer review for academic journals while following established internal guidelines and quality standards.
- Took part in collaborations with international research partners while following established internal guidelines and quality standards.
- Reviewed collaborations with international research partners for both internal teams and external partners.
- Prepared outreach events for local schools in line with the priorities agreed with senior stakeholders.
- Prepared research seminars and reading groups and kept relevant documentation up to date for the wider team.
- Documented doctoral and master's supervision in line with the priorities agreed with senior stakeholders.
- Helped coordinate research seminars and reading groups in line with the priorities agreed with senior stakeholders.

- Helped coordinate departmental committee work while following established internal guidelines and quality standards.
- Handled curriculum reviews and programme validation during periods of change and shifting business priorities.
- Launched a soil carbon research project, cutting student dropout rates from 24 to 2 days.
- Overhauled an interdisciplinary research centre, reducing sample processing time by 19% within 9 months.
- Handled curriculum reviews and programme validation using the tools and processes already in place within the organisation.
- Supported research seminars and reading groups in close collaboration with colleagues across several departments.
- Reviewed doctoral and master's supervision during periods of change and shifting business priorities.
- Monitored departmental committee work using the tools and processes already in place within the organisation.
- Reviewed undergraduate and postgraduate modules for both internal teams and external partners.
- Organised departmental committee work in close collaboration with colleagues across several departments.
- Helped coordinate outreach events for local schools using the tools and processes already in place within the organisation.
- Handled departmental committee work on a day-to-day basis alongside other routine responsibilities.
- Looked after undergraduate and postgraduate modules during periods of change and shifting business priorities.
- Prepared collaborations with international research partners and kept relevant documentation up to date for the wider team.
- Prepared departmental committee work while following established internal guidelines and quality standards.
- Maintained doctoral and master's supervision while following established internal guidelines and quality standards.
- Collaborated on curriculum reviews and programme validation and kept relevant documentation up to date for the wider team.
- Maintained undergraduate and postgraduate modules with attention to accuracy, clarity and consistency.
- Took part in student pastoral support for both internal teams and external partners.
- Reviewed peer review for academic journals while following established internal guidelines and quality standards.
- Handled curriculum reviews and programme validation in line with the priorities agreed with senior stakeholders.
- Contributed to doctoral and master's supervision during periods of change and shifting business priorities.
- Took part in outreach events for local schools using the tools and processes already in place within the organisation.
- Organised departmental committee work on a day-to-day basis alongside other routine responsibilities.
- Organised departmental committee work for both internal teams and external partners.
- Documented curriculum reviews and programme validation while following established internal guidelines and quality standards.
- Supported doctoral and master's supervision for both internal teams and external partners.
- Contributed to curriculum reviews and programme validation on a day-to-day basis alongside other routine responsibilities.
- Reviewed research seminars and reading groups in close collaboration with colleagues across several departments.
- Monitored doctoral and master's supervision and kept relevant documentation up to date for the wider team.

Senior Lecturer — Lumen Street Media (2016 – 2019)

- Looked after student pastoral support during periods of change and shifting business priorities.
- Assisted with outreach events for local schools for both internal teams and external partners.
- Maintained doctoral and master's supervision on a day-to-day basis alongside other routine responsibilities.
- Received the Regional Leadership Award for delivering a long-term river ecosystem monitoring study.
- Led a team of 9 to deliver a citizen science water quality project 7 weeks ahead of schedule.
- Supported student pastoral support as part of a small and friendly cross-functional team.
- Took part in undergraduate and postgraduate modules using the tools and processes already in place within the organisation.
- Assisted with laboratory safety and equipment management while following established internal guidelines and quality standards.
- Helped coordinate collaborations with international research partners as part of a small and friendly cross-functional team.
- Organised laboratory safety and equipment management during periods of change and shifting business priorities.
- Prepared peer review for academic journals while following established internal guidelines and quality standards.
- Helped coordinate peer review for academic journals using the tools and processes already in place within the organisation.
- Documented laboratory safety and equipment management and kept relevant documentation up to date for the wider team.
- Documented undergraduate and postgraduate modules during periods of change and shifting business priorities.
- Handled laboratory safety and equipment management while following established internal guidelines and quality standards.
- Contributed to research seminars and reading groups while following established internal guidelines and quality standards.
- Reviewed curriculum reviews and programme validation during periods of change and shifting business priorities.
- Looked after outreach events for local schools with attention to accuracy, clarity and consistency.
- Looked after outreach events for local schools and kept relevant documentation up to date for the wider team.
- Handled laboratory safety and equipment management as part of a small and friendly cross-functional team.
- Collaborated on peer review for academic journals while following established internal guidelines and quality standards.
- Took part in peer review for academic journals as part of a small and friendly cross-functional team.
- Took part in outreach events for local schools on a day-to-day basis alongside other routine responsibilities.
- Took part in departmental committee work as part of a small and friendly cross-functional team.
- Prepared laboratory safety and equipment management while following established internal guidelines and quality standards.
- Looked after undergraduate and postgraduate modules while following established internal guidelines and quality standards.
- Collaborated on departmental committee work for both internal teams and external partners.
- Looked after outreach events for local schools on a day-to-day basis alongside other routine responsibilities.
- Contributed to doctoral and master's supervision with attention to accuracy, clarity and consistency.
- Reviewed curriculum reviews and programme validation using the tools and processes already in place within the organisation.
- Took part in departmental committee work in line with the priorities agreed with senior stakeholders.

- Looked after curriculum reviews and programme validation for both internal teams and external partners.
- Supported laboratory safety and equipment management in close collaboration with colleagues across several departments.
- Looked after curriculum reviews and programme validation during periods of change and shifting business priorities.
- Organised research seminars and reading groups in line with the priorities agreed with senior stakeholders.
- Contributed to undergraduate and postgraduate modules as part of a small and friendly cross-functional team.
- Took part in collaborations with international research partners using the tools and processes already in place within the organisation.
- Contributed to laboratory safety and equipment management as part of a small and friendly cross-functional team.
- Organised research seminars and reading groups during periods of change and shifting business priorities.

Lecturer — Corvid Analytics (2012 – 2016)

- Organised student pastoral support in line with the priorities agreed with senior stakeholders.
- Supported research seminars and reading groups during periods of change and shifting business priorities.
- Prepared departmental committee work as part of a small and friendly cross-functional team.
- Monitored research seminars and reading groups as part of a small and friendly cross-functional team.
- Assisted with collaborations with international research partners in line with the priorities agreed with senior stakeholders.
- Helped coordinate departmental committee work using the tools and processes already in place within the organisation.
- Prepared peer review for academic journals as part of a small and friendly cross-functional team.
- Collaborated on curriculum reviews and programme validation for both internal teams and external partners.
- Helped coordinate student pastoral support and kept relevant documentation up to date for the wider team.
- Handled undergraduate and postgraduate modules for both internal teams and external partners.
- Monitored research seminars and reading groups for both internal teams and external partners.
- Contributed to departmental committee work on a day-to-day basis alongside other routine responsibilities.
- Reviewed undergraduate and postgraduate modules during periods of change and shifting business priorities.
- Prepared laboratory safety and equipment management during periods of change and shifting business priorities.
- Documented outreach events for local schools using the tools and processes already in place within the organisation.
- Organised peer review for academic journals with attention to accuracy, clarity and consistency.
- Assisted with curriculum reviews and programme validation during periods of change and shifting business priorities.
- Supported laboratory safety and equipment management in line with the priorities agreed with senior stakeholders.
- Took part in undergraduate and postgraduate modules during periods of change and shifting business priorities.
- Monitored laboratory safety and equipment management in close collaboration with colleagues across several departments.
- Handled research seminars and reading groups with attention to accuracy, clarity and consistency.

- Prepared research seminars and reading groups using the tools and processes already in place within the organisation.
- Prepared doctoral and master's supervision using the tools and processes already in place within the organisation.
- Maintained research seminars and reading groups while following established internal guidelines and quality standards.
- Monitored outreach events for local schools during periods of change and shifting business priorities.
- Documented doctoral and master's supervision and kept relevant documentation up to date for the wider team.
- Organised outreach events for local schools using the tools and processes already in place within the organisation.
- Assisted with departmental committee work while following established internal guidelines and quality standards.
- Streamlined a long-term river ecosystem monitoring study within 3 months, generating $1170K in new revenue.
- Looked after laboratory safety and equipment management and kept relevant documentation up to date for the wider team.
- Assisted with curriculum reviews and programme validation using the tools and processes already in place within the organisation.
- Reviewed collaborations with international research partners during periods of change and shifting business priorities.
- Took part in research seminars and reading groups in line with the priorities agreed with senior stakeholders.
- Assisted with student pastoral support for both internal teams and external partners.
- Automated a soil carbon research project, growing postgraduate enrolment by 14% year on year.
- Contributed to curriculum reviews and programme validation as part of a small and friendly cross-functional team.
- Monitored collaborations with international research partners with attention to accuracy, clarity and consistency.
- Maintained undergraduate and postgraduate modules while following established internal guidelines and quality standards.
- Introduced a soil carbon research project, growing postgraduate enrolment by 60% year on year.

Postdoctoral Research Fellow — Northwind Labs (2008 – 2012)

- Collaborated on doctoral and master's supervision using the tools and processes already in place within the organisation.
- Contributed to undergraduate and postgraduate modules in line with the priorities agreed with senior stakeholders.
- Reviewed outreach events for local schools using the tools and processes already in place within the organisation.
- Organised collaborations with international research partners during periods of change and shifting business priorities.
- Documented departmental committee work as part of a small and friendly cross-functional team.
- Documented doctoral and master's supervision for both internal teams and external partners.
- Prepared research seminars and reading groups in line with the priorities agreed with senior stakeholders.
- Looked after collaborations with international research partners in close collaboration with colleagues across several departments.
- Organised student pastoral support as part of a small and friendly cross-functional team.
- Documented peer review for academic journals and kept relevant documentation up to date for the wider team.
- Took part in departmental committee work on a day-to-day basis alongside other routine responsibilities.

- Supported collaborations with international research partners for both internal teams and external partners.
- Monitored curriculum reviews and programme validation as part of a small and friendly cross-functional team.
- Organised laboratory safety and equipment management as part of a small and friendly cross-functional team.
- Handled doctoral and master's supervision on a day-to-day basis alongside other routine responsibilities.
- Reviewed collaborations with international research partners and kept relevant documentation up to date for the wider team.
- Contributed to laboratory safety and equipment management in close collaboration with colleagues across several departments.
- Looked after peer review for academic journals in line with the priorities agreed with senior stakeholders.
- Organised research seminars and reading groups using the tools and processes already in place within the organisation.
- Supported student pastoral support during periods of change and shifting business priorities.
- Reviewed research seminars and reading groups as part of a small and friendly cross-functional team.
- Collaborated on departmental committee work as part of a small and friendly cross-functional team.
- Collaborated on departmental committee work in line with the priorities agreed with senior stakeholders.
- Collaborated on doctoral and master's supervision during periods of change and shifting business priorities.
- Took part in laboratory safety and equipment management using the tools and processes already in place within the organisation.
- Contributed to curriculum reviews and programme validation during periods of change and shifting business priorities.
- Contributed to departmental committee work in close collaboration with colleagues across several departments.
- Prepared undergraduate and postgraduate modules while following established internal guidelines and quality standards.
- Collaborated on research seminars and reading groups and kept relevant documentation up to date for the wider team.
- Organised collaborations with international research partners in line with the priorities agreed with senior stakeholders.
- Supported doctoral and master's supervision while following established internal guidelines and quality standards.
- Collaborated on research seminars and reading groups in close collaboration with colleagues across several departments.
- Handled doctoral and master's supervision as part of a small and friendly cross-functional team.
- Documented student pastoral support with attention to accuracy, clarity and consistency.
- Maintained laboratory safety and equipment management for both internal teams and external partners.
- Reviewed outreach events for local schools and kept relevant documentation up to date for the wider team.

EDUCATION

PhD in Environmental Science — Kingsmere Institute of Technology (2006)

Professional development in leadership and strategy — Kingsmere Institute of Technology (2012)

INTERESTS

Cooking and baking; Learning languages; Chess and strategy games.
