Anouk Edevane

Professor of Environmental Science | Port Averly | anouk.edevane@example.com

PROFESSIONAL SUMMARY

Dependable professional with a collaborative attitude and a genuine interest in continuous learning. Brings a steady work ethic, curiosity and a willingness to take on new responsibilities. Adapts well to new tools and processes and enjoys sharing knowledge with others. Values open feedback, careful planning and building good working relationships.

CORE SKILLS

research design, grant writing, postgraduate supervision, curriculum development, statistical analysis, peer review, public engagement, fieldwork coordination, academic leadership, interdisciplinary collaboration, laboratory management, scientific writing.

PROFESSIONAL EXPERIENCE

Professor of Environmental Science — Ironbridge Logistics (2022 – Present)

- Received the Excellence Award for delivering a long-term river ecosystem monitoring study.
- Handled undergraduate and postgraduate modules with attention to accuracy, clarity and consistency.
- Reviewed doctoral and master's supervision in close collaboration with colleagues across several departments.
- Reviewed research seminars and reading groups in close collaboration with colleagues across several departments.
- Monitored departmental committee work using the tools and processes already in place within the organisation.
- Helped coordinate outreach events for local schools during periods of change and shifting business priorities.
- Handled collaborations with international research partners during periods of change and shifting business priorities.
- Contributed to collaborations with international research partners in line with the priorities agreed with senior stakeholders.
- Collaborated on research seminars and reading groups as part of a small and friendly cross-functional team.
- Documented curriculum reviews and programme validation as part of a small and friendly cross-functional team.
- Monitored research seminars and reading groups on a day-to-day basis alongside other routine responsibilities.
- Monitored student pastoral support and kept relevant documentation up to date for the wider team.
- Organised departmental committee work with attention to accuracy, clarity and consistency.
- Implemented a soil carbon research project, increasing research income by 24%.
- Documented laboratory safety and equipment management while following established internal guidelines and quality standards.
- Prepared student pastoral support in line with the priorities agreed with senior stakeholders.
- Collaborated on doctoral and master's supervision using the tools and processes already in place within the organisation.
- Helped coordinate peer review for academic journals while following established internal guidelines and quality standards.
- Assisted with doctoral and master's supervision on a day-to-day basis alongside other routine responsibilities.
- Supported laboratory safety and equipment management while following established internal guidelines and quality standards.
- Handled student pastoral support with attention to accuracy, clarity and consistency.

- Looked after departmental committee work in close collaboration with colleagues across several departments.
- Built a new master's programme in climate adaptation within 8 months, generating $1215K in new revenue.
- Helped coordinate doctoral and master's supervision with attention to accuracy, clarity and consistency.
- Assisted with peer review for academic journals with attention to accuracy, clarity and consistency.
- Assisted with collaborations with international research partners while following established internal guidelines and quality standards.
- Organised peer review for academic journals while following established internal guidelines and quality standards.
- Monitored departmental committee work while following established internal guidelines and quality standards.
- Took part in laboratory safety and equipment management in line with the priorities agreed with senior stakeholders.
- Collaborated on laboratory safety and equipment management as part of a small and friendly cross-functional team.
- Contributed to outreach events for local schools with attention to accuracy, clarity and consistency.
- Took part in curriculum reviews and programme validation and kept relevant documentation up to date for the wider team.
- Contributed to undergraduate and postgraduate modules as part of a small and friendly cross-functional team.
- Took part in doctoral and master's supervision on a day-to-day basis alongside other routine responsibilities.
- Handled undergraduate and postgraduate modules in line with the priorities agreed with senior stakeholders.
- Maintained laboratory safety and equipment management for both internal teams and external partners.
- Contributed to collaborations with international research partners and kept relevant documentation up to date for the wider team.
- Supported collaborations with international research partners and kept relevant documentation up to date for the wider team.
- Monitored doctoral and master's supervision as part of a small and friendly cross-functional team.
- Handled departmental committee work and kept relevant documentation up to date for the wider team.
- Contributed to student pastoral support during periods of change and shifting business priorities.

Associate Professor — Saltmarsh Consulting (2019 – 2022)

- Implemented a citizen science water quality project that saved $1140K per year.
- Prepared peer review for academic journals using the tools and processes already in place within the organisation.
- Contributed to collaborations with international research partners with attention to accuracy, clarity and consistency.
- Prepared collaborations with international research partners and kept relevant documentation up to date for the wider team.
- Collaborated on peer review for academic journals with attention to accuracy, clarity and consistency.
- Supported outreach events for local schools on a day-to-day basis alongside other routine responsibilities.
- Led a team of 18 to deliver an industry partnership for sensor development 4 weeks ahead of schedule.
- Organised peer review for academic journals in close collaboration with colleagues across several departments.
- Monitored student pastoral support on a day-to-day basis alongside other routine responsibilities.
- Prepared undergraduate and postgraduate modules with attention to accuracy, clarity and consistency.
- Collaborated on outreach events for local schools during periods of change and shifting business priorities.
- Introduced an interdisciplinary research centre, reducing student dropout rates by 36% within 6 months.

- Assisted with departmental committee work and kept relevant documentation up to date for the wider team.
- Contributed to student pastoral support in line with the priorities agreed with senior stakeholders.
- Collaborated on collaborations with international research partners and kept relevant documentation up to date for the wider team.
- Assisted with departmental committee work during periods of change and shifting business priorities.
- Reviewed collaborations with international research partners for both internal teams and external partners.
- Supported doctoral and master's supervision with attention to accuracy, clarity and consistency.
- Collaborated on collaborations with international research partners on a day-to-day basis alongside other routine responsibilities.
- Contributed to departmental committee work using the tools and processes already in place within the organisation.
- Prepared research seminars and reading groups during periods of change and shifting business priorities.
- Redesigned an industry partnership for sensor development, cutting student dropout rates from 26 to 4 days.
- Contributed to student pastoral support on a day-to-day basis alongside other routine responsibilities.
- Contributed to departmental committee work and kept relevant documentation up to date for the wider team.
- Prepared doctoral and master's supervision during periods of change and shifting business priorities.
- Helped coordinate research seminars and reading groups on a day-to-day basis alongside other routine responsibilities.
- Took part in research seminars and reading groups while following established internal guidelines and quality standards.
- Assisted with departmental committee work on a day-to-day basis alongside other routine responsibilities.
- Helped coordinate curriculum reviews and programme validation using the tools and processes already in place within the organisation.
- Reviewed research seminars and reading groups using the tools and processes already in place within the organisation.
- Monitored student pastoral support in close collaboration with colleagues across several departments.
- Took part in research seminars and reading groups using the tools and processes already in place within the organisation.
- Assisted with research seminars and reading groups during periods of change and shifting business priorities.
- Handled research seminars and reading groups in close collaboration with colleagues across several departments.
- Organised student pastoral support and kept relevant documentation up to date for the wider team.
- Maintained student pastoral support as part of a small and friendly cross-functional team.
- Helped coordinate collaborations with international research partners while following established internal guidelines and quality standards.
- Collaborated on doctoral and master's supervision in close collaboration with colleagues across several departments.
- Overhauled a soil carbon research project within 5 months, generating $495K in new revenue.
- Supported research seminars and reading groups for both internal teams and external partners.
- Collaborated on doctoral and master's supervision for both internal teams and external partners.
- Documented collaborations with international research partners in line with the priorities agreed with senior stakeholders.
- Collaborated on departmental committee work with attention to accuracy, clarity and consistency.

Senior Lecturer — Oakhaven Services (2017 – 2019)

- Maintained departmental committee work as part of a small and friendly cross-functional team.

- Reviewed departmental committee work on a day-to-day basis alongside other routine responsibilities.
- Prepared departmental committee work while following established internal guidelines and quality standards.
- Supported curriculum reviews and programme validation as part of a small and friendly cross-functional team.
- Helped coordinate departmental committee work with attention to accuracy, clarity and consistency.
- Took part in research seminars and reading groups on a day-to-day basis alongside other routine responsibilities.
- Supported outreach events for local schools as part of a small and friendly cross-functional team.
- Maintained collaborations with international research partners for both internal teams and external partners.
- Looked after undergraduate and postgraduate modules for both internal teams and external partners.
- Looked after peer review for academic journals for both internal teams and external partners.
- Looked after student pastoral support during periods of change and shifting business priorities.
- Helped coordinate curriculum reviews and programme validation for both internal teams and external partners.
- Prepared student pastoral support with attention to accuracy, clarity and consistency.
- Supported doctoral and master's supervision and kept relevant documentation up to date for the wider team.
- Collaborated on collaborations with international research partners as part of a small and friendly cross-functional team.
- Received the Regional Leadership Award for delivering a long-term river ecosystem monitoring study.
- Took part in undergraduate and postgraduate modules for both internal teams and external partners.
- Supported research seminars and reading groups in close collaboration with colleagues across several departments.
- Monitored outreach events for local schools in line with the priorities agreed with senior stakeholders.
- Documented collaborations with international research partners in close collaboration with colleagues across several departments.
- Supported departmental committee work and kept relevant documentation up to date for the wider team.
- Reviewed curriculum reviews and programme validation on a day-to-day basis alongside other routine responsibilities.
- Maintained research seminars and reading groups as part of a small and friendly cross-functional team.
- Supported student pastoral support as part of a small and friendly cross-functional team.
- Took part in outreach events for local schools during periods of change and shifting business priorities.
- Collaborated on laboratory safety and equipment management with attention to accuracy, clarity and consistency.
- Contributed to laboratory safety and equipment management on a day-to-day basis alongside other routine responsibilities.
- Collaborated on undergraduate and postgraduate modules during periods of change and shifting business priorities.
- Handled doctoral and master's supervision using the tools and processes already in place within the organisation.
- Reviewed undergraduate and postgraduate modules and kept relevant documentation up to date for the wider team.
- Maintained research seminars and reading groups with attention to accuracy, clarity and consistency.
- Looked after doctoral and master's supervision while following established internal guidelines and quality standards.
- Assisted with peer review for academic journals using the tools and processes already in place within the organisation.
- Organised peer review for academic journals in line with the priorities agreed with senior stakeholders.

- Contributed to laboratory safety and equipment management with attention to accuracy, clarity and consistency.
- Prepared curriculum reviews and programme validation in line with the priorities agreed with senior stakeholders.
- Maintained student pastoral support while following established internal guidelines and quality standards.
- Assisted with doctoral and master's supervision in close collaboration with colleagues across several departments.

Lecturer — Bluepeak Systems (2014 – 2017)

- Rolled out a new master's programme in climate adaptation, reducing time to publication by 41% within 11 months.
- Handled collaborations with international research partners in line with the priorities agreed with senior stakeholders.
- Helped coordinate research seminars and reading groups while following established internal guidelines and quality standards.
- Handled outreach events for local schools as part of a small and friendly cross-functional team.
- Took part in laboratory safety and equipment management with attention to accuracy, clarity and consistency.
- Reviewed student pastoral support in close collaboration with colleagues across several departments.
- Took part in peer review for academic journals and kept relevant documentation up to date for the wider team.
- Collaborated on curriculum reviews and programme validation and kept relevant documentation up to date for the wider team.
- Helped coordinate undergraduate and postgraduate modules for both internal teams and external partners.
- Organised curriculum reviews and programme validation in line with the priorities agreed with senior stakeholders.
- Monitored undergraduate and postgraduate modules with attention to accuracy, clarity and consistency.
- Took part in peer review for academic journals while following established internal guidelines and quality standards.
- Documented student pastoral support in close collaboration with colleagues across several departments.
- Organised laboratory safety and equipment management with attention to accuracy, clarity and consistency.
- Took part in departmental committee work for both internal teams and external partners.
- Handled laboratory safety and equipment management as part of a small and friendly cross-functional team.
- Prepared student pastoral support for both internal teams and external partners.
- Organised laboratory safety and equipment management for both internal teams and external partners.
- Spearheaded a long-term river ecosystem monitoring study, increasing student satisfaction scores by 38%.
- Prepared departmental committee work on a day-to-day basis alongside other routine responsibilities.
- Collaborated on research seminars and reading groups and kept relevant documentation up to date for the wider team.
- Organised laboratory safety and equipment management in close collaboration with colleagues across several departments.
- Monitored undergraduate and postgraduate modules in line with the priorities agreed with senior stakeholders.
- Collaborated on departmental committee work using the tools and processes already in place within the organisation.
- Overhauled a citizen science water quality project now used by 8,520 publications.

- Maintained laboratory safety and equipment management in line with the priorities agreed with senior stakeholders.
- Assisted with departmental committee work while following established internal guidelines and quality standards.
- Prepared research seminars and reading groups in line with the priorities agreed with senior stakeholders.
- Helped coordinate curriculum reviews and programme validation during periods of change and shifting business priorities.
- Reviewed doctoral and master's supervision during periods of change and shifting business priorities.
- Maintained undergraduate and postgraduate modules with attention to accuracy, clarity and consistency.
- Monitored research seminars and reading groups in close collaboration with colleagues across several departments.
- Monitored outreach events for local schools using the tools and processes already in place within the organisation.
- Documented laboratory safety and equipment management with attention to accuracy, clarity and consistency.
- Collaborated on student pastoral support and kept relevant documentation up to date for the wider team.
- Organised curriculum reviews and programme validation and kept relevant documentation up to date for the wider team.
- Monitored laboratory safety and equipment management for both internal teams and external partners.
- Maintained doctoral and master's supervision and kept relevant documentation up to date for the wider team.
- Helped coordinate collaborations with international research partners during periods of change and shifting business priorities.
- Looked after doctoral and master's supervision on a day-to-day basis alongside other routine responsibilities.

Postdoctoral Research Fellow — Kelpie Software (2010 – 2014)

- Documented curriculum reviews and programme validation while following established internal guidelines and quality standards.
- Documented departmental committee work during periods of change and shifting business priorities.
- Contributed to peer review for academic journals as part of a small and friendly cross-functional team.
- Handled research seminars and reading groups on a day-to-day basis alongside other routine responsibilities.
- Assisted with undergraduate and postgraduate modules on a day-to-day basis alongside other routine responsibilities.
- Helped coordinate departmental committee work using the tools and processes already in place within the organisation.
- Took part in curriculum reviews and programme validation while following established internal guidelines and quality standards.
- Supported outreach events for local schools while following established internal guidelines and quality standards.
- Supported doctoral and master's supervision for both internal teams and external partners.
- Monitored departmental committee work as part of a small and friendly cross-functional team.
- Looked after student pastoral support for both internal teams and external partners.
- Took part in outreach events for local schools in line with the priorities agreed with senior stakeholders.
- Assisted with laboratory safety and equipment management as part of a small and friendly cross-functional team.
- Looked after laboratory safety and equipment management and kept relevant documentation up to date for the wider team.

- Monitored laboratory safety and equipment management with attention to accuracy, clarity and consistency.
- Organised departmental committee work in close collaboration with colleagues across several departments.
- Maintained curriculum reviews and programme validation while following established internal guidelines and quality standards.
- Organised doctoral and master's supervision during periods of change and shifting business priorities.
- Organised collaborations with international research partners in close collaboration with colleagues across several departments.
- Took part in collaborations with international research partners while following established internal guidelines and quality standards.
- Maintained student pastoral support on a day-to-day basis alongside other routine responsibilities.
- Supported laboratory safety and equipment management as part of a small and friendly cross-functional team.
- Handled curriculum reviews and programme validation in close collaboration with colleagues across several departments.
- Organised outreach events for local schools using the tools and processes already in place within the organisation.
- Organised undergraduate and postgraduate modules and kept relevant documentation up to date for the wider team.
- Looked after outreach events for local schools as part of a small and friendly cross-functional team.
- Organised doctoral and master's supervision while following established internal guidelines and quality standards.
- Reviewed student pastoral support with attention to accuracy, clarity and consistency.
- Helped coordinate undergraduate and postgraduate modules as part of a small and friendly cross-functional team.
- Contributed to departmental committee work as part of a small and friendly cross-functional team.
- Documented collaborations with international research partners on a day-to-day basis alongside other routine responsibilities.
- Supported laboratory safety and equipment management with attention to accuracy, clarity and consistency.
- Supported outreach events for local schools in close collaboration with colleagues across several departments.
- Documented collaborations with international research partners and kept relevant documentation up to date for the wider team.
- Monitored laboratory safety and equipment management using the tools and processes already in place within the organisation.
- Looked after departmental committee work during periods of change and shifting business priorities.
- Reviewed undergraduate and postgraduate modules in close collaboration with colleagues across several departments.

EDUCATION

PhD in Environmental Science — Eastmoor Polytechnic (2009)

Professional development in leadership and strategy — Eastmoor Polytechnic (2015)

INTERESTS

Reading contemporary fiction; Chess and strategy games; Long-distance cycling.
